Dear graduate students,

GA^3 is proud to co-sponsor the [RISE](#) campaign. RISE stands for Reject Injustice through Student Empowerment and is a united effort of MIT grad students led by Graduate Students for a Healthy MIT, Black Graduate Student Association, and Graduate Student Council Diversity, Equity, and Inclusion committee. You may have already seen the op-ed that was just published in [the Tech](#). The RISE campaign is building on the petition to Support Black Lives at MIT and grassroots department-level student advocacy efforts. The campaign aims to fight racism, sexism, and other forms of injustice on our campus to guarantee the right to a safe working and educational environment free of harassment, discrimination, and abuse.

The campaign has four goals:

1. Reform Graduate Admissions and Faculty Hiring
2. Increase Resources for Education and Support
3. Reform the Policies for Prevention and Response of Faculty Misconduct
4. Advance Funding Equity at MIT

We can only accomplish such massive change through the meaningful empowerment of marginalized and disempowered voices on our campus. Please consider signing the petition <https://bit.ly/2PaFs8c>.

Thanks for your support,

GA^3 Exec
